

AIRMAX®

DIGITAL CATALOG

The Clear Choice for Ponds, Lakes & Water Gardens

Airmax, Inc., is the industry leader in pond and lake management, producing unrivaled innovative fountain and diffused aeration systems and natural water treatments. Airmax was founded with a passion for improving the methods by which pond owners care for their ponds. With over 25 years of industry experience and proven results in the field, Airmax has become the most trusted name among pond and lake owners.

Pond & Lake Aeration

Airmax, The World's Best Aerator: The most effective, quiet, efficient and easiest to install. Aeration adds valuable oxygen to a pond or lake, particularly on the pond's bottom where muck and organic debris accumulates. A properly sized aerator works from the bottom up to ensure all areas of the pond are circulated and saturated with dissolved oxygen leaving you with a cleaner, clearer and balanced pond.

AIRMAX®

The Word's Best Aerator

- Quietest
- Lowest Maintenance
- Most Efficient
- Easiest to Install
- Made in the USA

Improve water clarity and reduce muck in just 90 days!

The Proof is in the Science

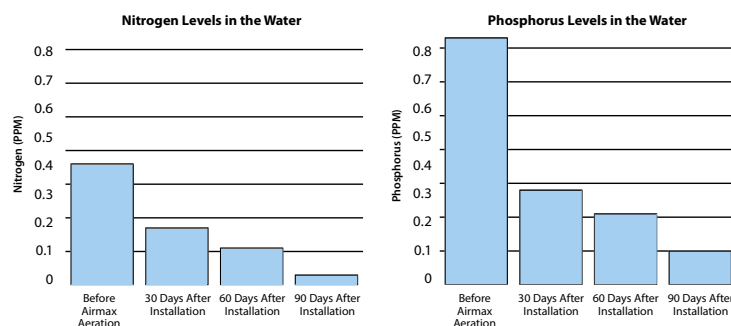

An independent study with Airmax Aeration

The Pond: A ½ acre, kidney shaped, 10+ year old pond located in the state of North Carolina. The pond had nearly 12" of muck buildup and required monthly chemical treatments to reduce algae blooms.

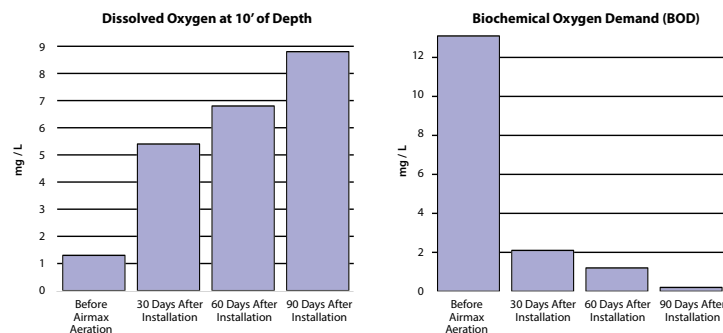

The Plan: Before the Airmax Aeration System was installed, water samples were taken to measure phosphorus, nitrogen, biochemical oxygen demand (BOD), dissolved oxygen and water clarity. Phosphorus and nitrogen are contributors to algae growth while dissolved oxygen and BOD help determine the potential for muck and nutrient reducing aerobic bacteria. An Airmax PondSeries PS20 aeration system was installed and water samples were taken every 30 days. The results speak for themselves.

The Results in 90 Days: Nitrogen & Phosphorus plummeted 90%. Oxygen became saturated throughout the pond, and the water clarity dramatically improved. There was also a major reduction in the amount of algae that needed to be treated. The BOD also decreased substantially while the aerobic bacterial activity increased which was responsible for almost ¼" of muck reduction in only 90 days.

Improved Water Clarity Through Nutrient Reduction

Reduced Muck & Healthier Fish Through Oxygen Saturation

Results You Can See in 90 Days

* Independent study by Aeration Technologies of North Carolina.

Airmax® Assist™ Results Guaranteed!

Aeration Mapping Service The right system for the perfect pond!

Let Airmax Design the Right System for Your Pond!
Selecting the right system as well as determining the proper placement of the diffusers is vital to ensuring you are circulating and aerating your pond or lake effectively. Having incorrectly placed diffusers or under-sizing an aeration system limits the overall effectiveness of an aeration system. Our Aeration Mapping Service ends the guesswork. Let an Airmax professional layout the perfect system for your pond and we will guarantee the results!

Here is How to Get Your Layout:

Log on to airmaxeco.com/airmax-assist and fill out the online form with all of your pond information. Upon receipt, one of our professionals will get to work to map, measure and properly design an Airmax Aeration System. You will then receive an aeration system layout with diffuser locations and complete system specifications branded with your company logo.

Please note: Airmax utilizes satellite maps provided by Google and/or Bing for all mapping requests. We may be limited by photo data if no recent satellite image was taken.

Why pond depth matters

The deeper a diffuser plate is placed in your pond, the more area it can effectively aerate. Shallow ponds, or ponds with irregular shapes & bends, require more diffuser plates per surface acre.

In shallow ponds, the column of diffused air is not able to "open" as far which limits the effective area of each plate. The bends and curves in irregular shaped ponds block the circulation provided by an aeration system which creates the need for more plates to reach isolated sections of your pond.

As diffused air leaves the diffuser plate, it rises to the pond's surface in a V pattern, creating a current. The higher this pattern is able to rise, the wider it becomes which allows it to circulate a greater volume of water.

Shallow Water Series®

System Features:

- Perfect for shallow ponds or beach areas up to 6' deep
- Single systems can aerate up to 1/2 acre
- ETL Electrical Safety Certification
- Extremely efficient, costs as little as \$3.60/month to run 24/7
- Available in 115v

PondSeries®

System Features:

- Perfect for ponds or small lakes up to 50' deep
- Single systems can aerate up to 6 acres
- ETL Electrical Safety Certification
- Extremely efficient compressor costs as little as \$13.20/month to run 24/7
- Available in 115v or 230v

Airmax Warranty Information

- Compressor & Electrical Components - 3 Years
- Airline & Diffusers - 5 Years
- Cabinet - 10 Years

The Airmax® Advantage

SilentAir Compressors

Highly Efficient & Long Lasting
3-Year Warranty
Made in the USA

- A. Large Air Filter – Maximizes the life of compressor
- B. High Efficiency SilentAir Compressor
- C. Manifold w/ Nickel Plated Ball Valves – Simplifies airflow management
- D. Rubber Compressor Mounts – Reduces noise and vibration for silent operation
- E. Airline Quick Disconnects – For easy system removal and storage of SW systems

LR Series Linear Diaphragm

RP Rocking Piston Series

ProAir® Weighted Diffusers

Maximum Circulation & Low Maintenance
5-Year Warranty
Made in the USA

- A. PTFE Non-Stick 6" Membrane Diffuser Stick – Provides the synergies of air stones while being virtually maintenance-free
- B. Check Valve – Prevents back pressure on compressor

ProAir 2 For Shallow Water Ponds
Diffuser Size: 14.75"L x 8"W x 3.75"H

- C. Innovative Sled Design – Keeps diffuser submerged while maintaining an upright position during installation

ProAir 4 For Ponds And Lakes
Diffuser Size: 19"L x 19"W x 5"H

Airmax Composite Cabinet

Quiet, Cool & Easy to Install
10-Year Warranty on Cabinet
3-Year Warranty on Electrical Component

- A. Composite Cabinet w/ Removable Top – Protects components while providing easy access
- B. Ventilation Fan w/ Rain Shroud – Cools and protects against moisture and heat damage
- C. Pre-wired Electrical Box – Simplifies electrical connections for easy setup

- D. Elevated Base – Protects against damaging flood water
- E. High Density Air Intake Filter – Protects the compressor from outside contaminants

Standard Composite Cabinet
Cabinet Size: 23"L x 17"W x 15"H

Large Composite Cabinet
Cabinet Size: 27" L x 24" W x 18.75" H

Airmax Aeration Systems can be installed at the pond's edge or up to ¼ mile away from your pond.

You Have Options With Airmax

Airmax Aeration Systems are the easiest and most versatile systems to install on the market. Airmax Aeration Systems can be installed next to the pond's edge or as far as ¼ mile away! No power is needed at shore! Airmax utilizes their EasySet™ Direct Burial Airline to deliver oxygen to your pond without the added expense of hiring an electrician.

Shallow Water Series[®] Systems for Ponds up to 1/2 Acre

SW20 • Aerates up to 1/4 Acre

SW20 Includes: Two ProAir 2 Weighted Diffusers, Airmax Composite Cabinet with cooling fan, high efficiency LR25 SilentAir Linear Diaphragm Compressor and a Dual Manifold Assembly. 3-year warranty. Made in the USA.

Note: Operating a shallow water system at depths greater than 6' will void warranty and cause premature failures.

SW20 System Specs:

Running Amps	0.43
Volts	115
CFM.....	2.5
Max Depth.....	6'
Op. Cost / Mo.*.....	\$3.60 (24/7)
Power Cord	6'

Cabinet Dimensions: 23"L x 17"W x 15"

2-Diffuser System

Aerates up to: 1/4 Acre, up to 6' Deep

Diffuser Placement:

#600803 - SW20 w/200' 3/8" wt. Airline**

#600801 - SW20, No Airline

SW40 • Aerates up to 1/2 Acre

SW40 Includes: Four ProAir 2 Weighted Diffusers, Airmax Composite Cabinet with cooling fan, high efficiency LR50 SilentAir Linear Diaphragm Compressor and a Quad Manifold Assembly. 3-year warranty. Made in the USA.

Note: Operating a shallow water system at depths greater than 6' will void warranty and cause premature failures.

SW40 System Specs:

Running Amps	0.87
Volts	115
CFM.....	4.9
Max Depth.....	6'
Op. Cost / Mo.*.....	\$7.20 (24/7)
Power Cord	6'

Cabinet Dimensions: 23"L x 17"W x 15"

4-Diffuser System

Aerates up to: 1/2 Acre, up to 6' Deep

Diffuser Placement:

#600813 - SW40 w/400' 3/8" wt. Airline**

#600811 - SW40, No Airline

*Cost Per Month is calculated at 10¢ per kilowatt hour. Please note that costs will vary depending on location.

**Weighted airline ships in 100' rolls. Example: SW20 comes with (2) 100' rolls.

PondSeries® Systems for Ponds up to 6 Acres

PS10 • Aerates up to 1 Acre

The PS10 is ideal for ponds, up to 1 acre and between 6 and 50 feet deep. PS10 Includes: One ProAir 4 Weighted Diffuser, Airmax Composite Cabinet with cooling fan, 1/4 HP SilentAir Rocking Piston Compressor, and a Single Manifold Assembly. Manufactured in the USA with high performance, professional quality components. 3-year warranty. Airline sold separately.

PS10 System Specs:

HP.....	1/4
Running Amps	1.6
Volts	115
CFM.....	2.3
Max Depth.....	50'
Op. Cost / Mo.*.....	\$13.20 (24/7)
Power Cord	6'

Cabinet Dimensions: 23"L x 17"W x 15"H

1-Diffuser System

Aerates up to:

- 0.25 Acre, 6'-9' Deep
- 0.5 Acre, 9'-12' Deep
- 1 Acre, 12'-50' Deep

Diffuser Placement:

#600822 - PS10 w/100' 3/8" wt. Airline**

#600821 - PS10, No Airline

Available in 230v models. Call for details.

PS20 • Aerates up to 2 Acres

The PS20 is ideal for ponds, up to 2 acre and between 6 and 50 feet deep. PS20 Includes: Two ProAir 4 Weighted Diffusers, Airmax Composite Cabinet with cooling fan, 1/2 HP SilentAir Rocking Piston Compressor, and a Dual Manifold Assembly. Manufactured in the USA with high performance, professional quality components. 3-year warranty. Airline sold separately.

PS20 System Specs:

HP.....	1/2
Running Amps	4.1
Volts	115
CFM.....	4.7
Max Depth.....	50'
Op. Cost / Mo.*.....	\$33.95 (24/7)
Power Cord	6'

Cabinet Dimensions: 23"L x 17"W x 15"H

2-Diffuser System

Aerates up to:

- 0.5 Acre, 6'-9' Deep
- 1 Acre, 9'-12' Deep
- 2 Acres, 12'-50' Deep

Diffuser Placement:

#600832 - PS20 w/200' 3/8" wt. Airline**

#600831 - PS20, No Airline

Available in 230v models. Call for details.

*Cost Per Month is calculated at 10¢ per kilowatt hour. Please note that costs will vary depending on location.

**Weighted airline ships in 100' rolls. Example: PS20 comes with (2) 100' rolls.

PS40 • Aerates up to 4 Acres

The PS40 effectively and efficiently aerates ponds up to 4 acres and between 6 and 50 feet deep. PS40 Includes: Choice of Three or Four ProAir 4 Weighted Diffusers, Airmax Composite Cabinet with cooling fan, 3/4 HP SilentAir Rocking Piston Compressor, and a Quad Manifold Assembly. Manufactured in the USA with high performance, professional quality components. 3-year warranty. Airline sold separately.

PS40 System Specs:

HP.....	3/4
Running Amps	4.3
Volts	115
CFM.....	5.6
Max Depth.....	50'
Op. Cost / Mo.*.....	\$35.40 (24/7)
Power Cord	6'

Cabinet Dimensions: 23"L x 17"W x 15"H

3-Diffuser System

Aerates up to:

- 1.5 Acre, 6'-9' Deep
- 2 Acres, 9'-12' Deep
- 3 Acres, 12'-50' Deep

Diffuser Placement:

#600842 - PS40, 3-Diffuser w/300' 3/8" wt. Airline**

#600861 - PS40, 3-Diffuser No Airline

#600867 - PS40, 4-Diffuser w/400' 3/8" wt. Airline**

#600865 - PS40, 4-Diffuser No Airline

Available in 230v models. Call for details.

4-Diffuser System

Aerates up to:

- 2 Acre, 6'-9' Deep
- 3 Acres, 9'-12' Deep
- 4 Acres, 12'-50' Deep

Diffuser Placement:

PS60 • Aerates up to 6 Acres

The PS60 aerates ponds and lakes up to 6 acres and between 6 and 50 feet deep, or ponds with an irregular shape that require precision diffuser placement for even circulation. PS60 Includes: Choice of Five or Six ProAir 4 Weighted Diffusers, Large Airmax Composite Cabinet with cooling fan, 1 HP SilentAir Rocking Piston Compressor, and a Six-Port Manifold Assembly. Manufactured in the USA with high performance, professional quality components. 3-year warranty.

PS60 System Specs:

HP.....	1
Running Amps	6.3
Volts	115
CFM.....	7.1
Max Depth.....	50'
Op. Cost / Mo.*.....	\$51.90 (24/7)
Power Cord	6'

Cabinet Dimensions: 27"L x 24"W x 18.75"H

5-Diffuser System

Aerates up to:

- 2.5 Acre, 6'-9' Deep
- 3.5 Acres, 9'-12' Deep
- 5 Acres, 12'-50' Deep

Diffuser Placement:

#600869 - PS60, 5-Diffuser No Airline

#600873 - PS60, 6-Diffuser No Airline

Available in 230v models. Call for details.

6-Diffuser System

Aerates up to:

- 3 Acre, 6'-9' Deep
- 4 Acres, 9'-12' Deep
- 6 Acres, 12'-50' Deep

Diffuser Placement:

*Cost Per Month is calculated at 10¢ per kilowatt hour. Please note that costs will vary depending on location.

**Weighted airline ships in 100' rolls. Example: PS40 4-Diffuser comes with (4) 100' rolls.

Aeration Quick Comparison Chart

Shallow Water Series Systems											
System	Single System Aerating Area		What's Included				System Specs				
	Maximum Aerating Area	Max Diffuser Depth (ft)	Max # of ProAir® 2 Diffusers	Compressor	EasySet Airline †	Cabinet Size	Amps		Op. Cost / Month (24/7)	Decibel Level at 5' Distance	Max CFM
SW20	1/4 acre*	6	2	LR25 Diaphragm	Use with 3/8" or 5/8" Airline	Standard	.43	N/A	\$3.60**	45.8	2.5
SW40	1/2 acre*	6	4	LR50 Diaphragm	Use with 3/8" or 5/8" Airline	Standard	.87	N/A	\$7.20**	47.3	4.9

PondSeries Systems											
System	Single System Aerating Area		What's Included				System Specs				
	Maximum Aerating Area 12'-50' depth	Max Diffuser Depth (ft)	Max # of ProAir® 4 Diffusers	Rocking Piston Compressor HP	EasySet Airline †	Cabinet Size	Amps		Op. Cost / Month (24/7)	Decibel Level at 5' Distance	Max CFM
PS10	1 acre*	50	1	G25 1/4 HP	Use with 3/8" or 5/8" Airline	Standard	1.6	0.8	\$13.20**	50.5	2.3
PS20	2 acres*	50	2	G50 1/2 HP	Use with 3/8" or 5/8" Airline	Standard	4.1	2.05	\$33.00**	50.7	4.7
PS40	4 acres*	50	4	T75 3/4 HP	Use with 3/8" or 5/8" Airline	Standard	4.3	2.15	\$35.40**	52.6	5.6
PS60	6 acres*	50	6	T100 1 HP	Use with 5/8" Airline	Large	6.3	3.15	\$51.90**	58.7	7.1

* For larger ponds or lakes, multiple systems may be used.

** Operating cost is calculated at 10¢ per kilowatt hour. Cost will vary depending on location.

† 5/8" airline is recommended for a single line longer than 300' or when total airline is greater than 600'

ProAir Diffusers

ProAir 2 Replacement Parts

1. #510168 – Complete 6" Membrane Stick
2. #490340 – Check Valve
3. #490333 – Diffuser Sled w/Stainless Plate
4. #610008 – PTFE 6" Membrane Sleeve Only
5. #610004 – Membrane Retainer Ring
- * #490229 – Marine Stainless Hose Clamp
- * #490227 – $\frac{5}{8}$ " to $\frac{3}{4}$ " Insert Reducer Adapter
- * #490225 – $\frac{3}{8}$ " to $\frac{3}{4}$ " Insert Reducer Adapter
- #490354 – Complete ProAir 2 Diffuser

- #490313 – Airline Caps, Shallow Water Series
- #490323 – Airline Caps, Optional Camlock Connector Kits
- #490309 – O-Ring for Airline Caps, Shallow Water Series

Security Kit

Cabinet Security Stake Kit includes:
(1) 24" unistrut, (1) 2' cable, (1) brass security lock.

- #510430 – Cabinet Security Stake Kit

D-SCALE™

D-SCALE is a powerful, fast-acting, foaming cleaner that deep cleans and removes limescale, calcium, rust stains and other mineral deposits without scrubbing. This cleaner is 100% biodegradable. Perfect for use on aeration equipment, fountains, spray boats and water pumps.

- #530298 – D-SCALE w/ Foaming Tip, 32 fl oz

- #530299 – D-SCALE, 1 gal.

System Accessories

Remote Manifold Kit

Designed for aeration installations where the power source is away from the pond's edge, the Remote Manifold Kit allows for a single run of direct burial airline from the power source to the pond.

This gives you the ability to make airflow adjustments pond side so you can remain in view of the diffusers. All kits include a junction valve box, remote manifold and necessary fittings to connect to 1" poly pipe

#600194 – 4-Port Manifold

#600254 – 6-Port Manifold

Camlock Connector Kit

The Airmax Camlock Connector Kit is designed for fast and easy connections between the compressor manifold hoses and underground airlines. Ideal for PondSeries systems that will be removed for winter months. Camlock Connector Kits can be used with 3/8" or 5/8" airline.

#510435 – Camlock Connector Kit

Cabinet Post Mount Kit

Use the Cabinet Post Mount Kit for Shallow Water & PondSeries installations that require the aeration cabinet to be elevated. Constructed of powdered coated aluminum, the mount kit includes mounting bracket and hardware to secure aeration cabinet to both round or square wooden posts, 4" diameter or larger.

#652121 – Standard Composite Cabinet Post Mount Kit

#652122 – Large Composite Cabinet Post Mount Kit

Airmax Under Cabinet Junction Box

Use with any Airmax Aeration System for easy removal or access to line connections underneath the cabinet.

Box Dimensions: 12" W x 17" L x 6" H

#490369 – Junction Valve Box

Existing Airmax Composite Cabinet

Junction/Valve Box

Aeration Replacement Parts

Note: For best results, Airmax recommends preventative maintenance every 12-18 months on all RP Series compressors.

5. Cabinet Filter

- #510395 • Air Intake Pre-Filter, Standard Composite Cabinet
- #510417 • Air Intake Pre-Filter, Large Composite Cabinet

6. RP Series Replacement Air Filters

- #510150 • Air Filter, Complete
- #510151 • Air Filter Element Only
- #510030 • Air Filter, Complete (1 HP Compressors)

EcoSeries™ Fountain

- Energy Efficient
- Industry Leading Spray Patterns
- Maintenance Free Motor Design
- Easy to Install & Maintain

Airmax EcoSeries ½ HP Fountain

EcoSeries Fountain Features:

- ½ HP Fountain Pump Operates in as Little as 24" of Water
- Asynchronous Energy Efficient Motor is Water Cooled, Powerful and Built to Last
- Stainless Steel Body & Suction Screen
- Stainless Steel Wrapped Motor Lead

EcoSeries Fountain Kit Includes:

- 3 Spray Patterns: Classic, Trumpet, Crown & Trumpet
- Energy Efficient, Fully Sealed, UL Approved Motor 5.8 Amps, 667 Watts @ 115v
- 115v Plug & Play Control Panel with Two Digital Timers for Fountain & Optional Lights
- Power Cord with Strain Relief
- Underwater Quick Disconnect

Updated 115v Control Panel
Now Includes Two Digital Timers

Power Cord w/Strain Relief

EcoSeries Fountain Kits

- #652883 - Fountain w/100' Cord
- #652884 - Fountain w/150' Cord
- #652885 - Fountain w/200' Cord
- #652886 - Fountain w/250' Cord
- #652887 - Fountain w/300' Cord
- #652806 - Fountain w/350' Cord
- #652807 - Fountain w/400' Cord

EcoSeries Accessories

Mooring Kit

Kit Includes: 2 stakes, 2 carabiners, 2 cable clamps, vinyl coated galvanized cable (Mooring Line)

- #651052 - 150' Mooring Kit, (2) 75' sections
- #651054 - 250' Mooring Kit, (2) 125' sections
- #651055 - 500' Mooring Kit, (1) 500' section

Filter Sock for EcoSeries

#651623 - EcoSeries Filter Sock
Keeps debris out of the motor without decreasing flow

Spray Pattern:

Crown & Trumpet

The Airmax Crown & Trumpet pattern combines an arch and trumpet pattern creating a majestic display.

Pattern Dimensions:

Trumpet: **8'h x 4'w**

Crown: **4'h x 32'w**

Item:

#651703

See Spray Patterns in action
at airmaxeco.com/ecoseries

Spray Pattern: **Trumpet**

The Trumpet pattern provides a bountiful tall burst of water giving you the tranquil sound of water.

Pattern Dimensions: **14'h x 7'w**

Item: **#651708**

Spray Pattern: **Classic**

The Classic pattern comes pre-installed on the Airmax EcoSeries Fountain. This beautiful full pattern provides relaxing sounds as the water breaks the surface.

Pattern Dimensions: **6'h x 16'w**

Item: **#651164**

Optional EcoSeries Premium Spray Patterns

Spray Pattern:

Double Arch & Geyser

Combines the overlapping double arch with a gushing center geyser to create an awe-inspiring display.

Pattern Dimensions:

Geyser: **9'h**

1st Tier: **7'h x 12'w**

2nd Tier: **5'h x 34'w**

Item:

#651447

Optional EcoSeries Premium Spray Patterns

Spray Pattern:
Single Arch

The Single Arch pattern has heavy streams providing a formal visual display and soothing ambiance.

Pattern Dimensions:
8'h x 16'w

Item:
#651446

Optional EcoSeries Premium Spray Patterns

Spray Pattern:

Double Arch

The Double Arch pattern provides two overlapping arch patterns to create a stunning visual presentation. A perfect fit for larger ponds.

Pattern Dimensions:

1st Tier: **10'h x 16'w**

2nd Tier: **5'h x 38'w**

Item:

#651445

Optional EcoSeries Premium Spray Patterns

Spray Pattern:

Blossom

The Blossom pattern combines the sights and sounds of a full base pattern and a stunning arch display. This pattern produces an exquisite water display on pond and lakes.

Pattern Dimensions:

1st Tier: **4'h x 6.5'w**

2nd Tier: **1.5'h x 11'w**

Item: **#652147**

RGBW LED Fountain Light Sets

- Low Energy, High Output LED Bulbs
- Fully Adjustable, No Tools Required Snap-on Design
- Above Waterline Design for Maximum Light Output and Low Maintenance
- Hue changing ability, from cool white to warm white. Change red, green and blue from vibrant to pastel.

Water Garden Aeration

Our CrystalClear® Aeration systems are designed for small, medium, and large water gardens. They are easy to install, energy efficient, and supply the fresh air needed for a balanced ecosystem. By maintaining high oxygen levels, you are supporting the good bacteria that help to keep your pond clear. In addition, water circulation allows your filter to work more effectively. Designed to be used all four seasons, to maintain a balanced pond.

Why Aerate Your Water Garden?

How does aeration work?

Aeration works from the bottom up, providing circulation and increased dissolved oxygen levels. Although waterfalls and fountain features add oxygen to the pond, in many cases, they are not enough. Adding a PondAir or KoiAir system will ensure you have adequate aeration and circulation.

Here are 5 great reasons to add aeration to your pond...

- A properly sized aerator adds valuable oxygen to a pond more efficiently than a typical waterfall feature.
- Higher oxygen levels increase beneficial bacteria in a pond, leading to healthier fish, cleaner water and less organic buildup on the bottom of a pond.
- Aeration replaces the need for de-icers or heaters in the winter months. Aeration releases gasses from the pond and adds oxygen more efficiently than a de-icer or pond heater.
- Saves energy costs of running a waterfall pump. A properly sized aerator can aerate a pond allowing you to turn your waterfall pump on only when you're there to enjoy it. This can save you hundreds of dollars each year.
- Reduces pond maintenance. By running an aerator in conjunction with a waterfall pump, your pond will stay cleaner, longer.

PondAir® Aeration Kits

For Ponds up to 2,000 Gallons

PondAir 2

PondAir 4

- Adds Valuable Oxygen & Circulation to Smaller Water Gardens
- Extremely Quiet Operation
- Energy Efficient Costing as Little as \$0.20/Month to Run

Protect your PondAir with a Mini TrueRock Vented Cover | pg. 30

PondAir Aeration Kits are perfect for ponds up to 2,000 gallons. Powered by highly efficient diaphragm compressors, these kits add valuable oxygen to your pond while remaining quiet and inexpensive to operate. All kits include: 2" round air stones, flexible black vinyl airline and check valves. Designed for outdoor use. Includes 6' grounded power cord. **1 year warranty.**

SPECS:	PondAir 2	PondAir 4
Recommended Pond Size	1,000 Gallons	2,000 Gallons
Number of Air Stones	2	4
30' Rolls of Airline	2	4
Air Flow	0.15 CFM	0.30 CFM
Max Air Stone Depth	2'	2'
Wattage/Op Costs (24/7)	4 / \$0.20 per month	8 / \$0.40 per month
Recommended TrueRock	Mini TrueRock Boulder Cover (#510403)	

Complete PondAir Aeration Kits

#120915 • PondAir 2, 2 Air Stones - For Ponds up to 1,000 Gallons

#120916 • PondAir 4, 4 Air Stones - For Ponds up to 2,000 Gallons

Replacement Parts

#160261 • Replacement 2" Blue Air Stone, 2 Pack

#490316 • Replacement Check Valve, 2 Pack

#490315 • Replacement 30' Roll of Airline

#120920 • PondAir 2 Replacement Diaphragm Kit

#120921 • PondAir 4 Replacement Diaphragm Kit

*Cost per month is calculated at 10¢ per kilowatt hour. Cost will vary depending on location.

KoiAir® Aeration Kits

For Ponds 2,000 to 16,000 Gallons

KoiAir 1

- Perfect for Aerating Medium to Large Sized Water Gardens
- Extremely Energy Efficient & Whisper-Quiet Operation
- Dual Diaphragm Provides Maximum Circulation & Oxygen

KoiAir Dual Stick Plate

Protect your KoiAir with a Small TrueRock Vented Cover | pg. 30

With the ability to aerate up to a 16,000 gallon pond, KoiAir Aeration Kits are flexible and ideal for medium to large sized water gardens. Built with an energy efficient dual diaphragm compressor, KoiAir Aeration Kits provide maximum circulation and oxygen. All kits include: membrane diffuser and 3/8" weighted airline. 6' power cord. **3 year warranty.**

TrueRock® Boulder & Flat Covers No One Will Ever Know It's Fake

This amazing fiberglass rock cover looks and feels like the real thing! It's by far the most realistic rock cover on the market. Blends beautifully into any landscape, and is the perfect solution for hiding aeration compressors, uv clarifiers, pressure filters, skimmers, waterfall boxes, or anything unsightly. Hand-painted, so every rock is unique! Made in the USA. Available in two colors, please specify when ordering.

TrueRock Boulder Covers

- 1 #510403 • Mini, 10"L x 8"W x 5"H (Vented)
Works with all PondAir Aeration Systems
- 2 #510330 • Small, 18"L x 16"W x 11"H (Vented)
Works with all KoiAir Aeration Systems
- 3 #510332 • Medium, 27"L x 21"W x 14"H
- 4 #510333 • Large, 33"L x 24"W x 20"H

TrueRock Flat Covers

- 5 #510329 • Mini, 22"L x 19"W x 3"H
- 6 #510402 • Small, 30"L x 23"W x 3"H
- 7 #510400 • Medium, 32"L x 26"W x 4"H
- 8 #510401 • Large, 42"L x 36"W x 5"H

TrueRock® Sizing Guide

Find the Rock to Suit Your Needs!

- 1 Measure the max dimensions of the object you are trying to cover.
- 2 Match the max height of your object to the chart on the right. If you cannot find your height, choose the next largest height listed.
- 3 Go across the row and find the dimensions that are LARGER than the max length and max width of your object.
- 4 More than one TrueRock may fit your object. Choose the rock that fits your landscape best!

Pond & Lake Treatments

We supply a full line of products for proactive and reactive pond management. Arimax features natural water treatments to improve water clarity and reduces muck and foul odors. Our bacteria products and dyes can restore water quality and natural beauty with simple applications. If you're struggling with weeds and algae, we have reactive treatments to help you reclaim your pond or lake.

MuckOut™ Muck Reducing Beneficial Bacteria

- Reduces up to 2" of Muck Per Month
- Great for Beaches, Docks, Shorelines or Total Pond & Lake Treatments
- Highly Concentrated Natural Bacteria & Enzyme Formulation
- All Natural & Safe for All Aquatic Life

MuckOut natural bacteria are precision release pellets that sink to the bottom of the pond to digest and convert muck into an odorless gas. MuckOut is perfect for both total pond care and spot treating areas such as beaches or shorelines. Use 16 tablets to treat up to ¼ acre every 2 weeks or to treat 2,000 sq ft of shoreline every 2 weeks when water temperatures are above 50°F. MuckOut is 100% natural and safe for all aquatic and domestic life.

#CC200-6 MuckOut, 6 lb, 96 Tablets Treats 1/4 Acre for up to 3 Months

#CC200-24 MuckOut, 24 lb, 384 Tablets Treats 1 Acre for up to 3 Months

ClearOut™ Pond Clarifying Natural Bacteria

- Clears Water & Supports a Balanced Ecosystem
- Eliminates Nutrients, Odors & Suspended Organics
- All Natural & Safe for All Aquatic Life
- Easy to Use Water Soluble Packets

Keep your pond crystal clear all season long with ClearOut natural bacteria. ClearOut removes excess nutrients and suspended organic waste to improve overall water clarity. Use 2 packets for areas up to 1/4 surface acre every 2 weeks when water temperatures are above 50°F. ClearOut is 100% natural and safe for all aquatic and domestic life.

#CC210-6 ClearOut, 6 lb, 12 packets Treats 1/4 Acre for up to 3 Months

#CC210-24 ClearOut, 24 lb, 48 packets Treats 1 Acre for up to 3 Months

Pond & Lake Dye Pond Colorant

- Easy to Use, Convenient Water Soluble Packets or Gallon Treatments
- Available in 2 Colors
- Safe for All Aquatic & Domestic Life

Protect and shade ponds with pond dye. Provide a vibrant blue color with TrueBlue, or provide a dark blue color with DeepBlue. Available in liquid or easy to use water soluble packets, no mixing required. Apply every 4-8 weeks or as needed.

CC220-1G	TrueBlue™ Liquid Dye, 128 fl oz	Treats 1 Acre, 4'– 6' Deep

Select the Right Airmax Product for Your Pond or Lakefront

Step 1 | Determine Where the Problem Plants are Located

Use the diagram above to help identify where your plants are growing. Below are some common examples from each category.

Algae/Chara
Floating & Submerged Mats,
Musky Odor, Mats on Surface

Bottom Algae

Emergent Weeds
Perimeter Nuisances with
Submerged Roots

Cattails

Floating Weeds
Found in Shallow Water

Watermeal

Submerged Weeds
Deep Roots Make for
Tough Kill

Curly Leaf Pondweed

Chara

Shoreline Grasses

Duckweed

Eurasian Watermilfoil

Floating Algae Mats

Phragmites

Lily Pads

Naiads

Step 2 | Match Weed Type to Product to Determine Best Treatment

Step 3 | Review Water Use Restrictions

Product	Page	Floating Algae	Bottom Algae/Chara	Emergent Weeds	Floating Weeds	Submerged Weeds	Irrigation	Swimming	Livestock	Drinking
Shoreline Defense Liquid	37	–	–	Excellent	Good	–	None	None	None	None
Algae Defense Liquid	39	Excellent	Good	–	–	–	None	None	None	None
EasyKlear Defense Granular	38	Good	Excellent	–	–	Excellent	7 Days for Crops Only	None	7-25 Days	7-25 Days
KnockDown Defense Liquid	40	Excellent	Fair	Good	Excellent	Good	5 Days	None	None	None
Ultra Pondweed Defense Liquid	41	–	–	Good	Good	Excellent	5 Days	None	1 Day	3 Days
WipeOut Defense Liquid	41	–	–	Fair	Excellent	Excellent	None	None	None	None

**Chart above provides recommendations. Always follow complete label instructions for application, dosage, and restrictions.*

Tips From an Airmax Professional

1. For Season-Long, Whole-Pond Weed Control: If applied in the spring at the first sign of weed growth, Airmax WipeOut will control your persistent pond weeds all season long! Airmax WipeOut is a popular systemic fluridone herbicide that controls pond weeds slowly by starving them of nutrients, all without a rapid oxygen depletion or a fish kill.

2. For Spot Treatment/Lakefront: Selecting the right Airmax product will allow you to target specific nuisance weeds growing along your dockside, lakefront or shoreline. It is best to start treatment when you first identify a problem, as rampant weed growth can choke the life out of the delicate pond ecosystem if action is not taken.

3. Choose the Right Application Tool: Having the right tool for the job can make all the difference. For liquid Airmax treatments, use a tank sprayer that allows for better control and greater reach. For granular Airmax treatments, select a spreader that offers adjustable and consistent application.

Bonus Tip: For even better results, use Airmax Treatment Booster Plus with any of the liquid products above. (See pg. 37) Treatment Booster Plus is a surfactant that breaks down the surface of a plant, allowing for more efficient chemical penetration.

BEFORE

STEP 1: Treat Unwanted Growth with Shoreline Defense

AFTER

STEP 2: Cut, Rake & Remove Growth

Shoreline Defense®

Broad Spectrum Emergent Weed Control - Systemic Herbicide

- Kills the Roots of Even the Most Persistent Weeds
- Works Great on Cattails, Phragmites, Lilies, Purple Loosestrife & Other Emergent Weeds
- Perfect for Cleaning up Beaches & Shorelines

When persistent emergent weeds are a problem, Shoreline Defense takes care of it. Shoreline Defense is perfect for nuisance cattails, phragmites or other emergent weeds as it not only kills the foliage, it kills the roots for long-term control. For best results, use with Treatment Booster Plus.

How to Use: Mix 8 fl oz of Shoreline Defense, 4 fl oz Treatment Booster Plus, and 2 gallons of water in a tank sprayer to treat up to 2,500 sq ft. Spray only on foliage above the water's surface, on a calm day to keep spray contained to target areas. Completely wet foliage surface for best results. Always read product label before use.

Water Use Restrictions: None

State Shipping Restrictions: Shoreline Defense AK, AZ, CA, CT, DC, HI, MA, ME, NJ, NY, PR, RI, VT, WA, or Canada.

#530157	Shoreline Defense, 1 qt (32 fl oz)	Treats up to 20,000 sq ft
#530167	Shoreline Defense, 1 gal (128 fl oz)	Treats up to 80,000 sq ft

Treatment Booster Plus®

Pond Treatment Enhancer

- Surfactant Increases Chemical Effectiveness
- Allows Treatment to Penetrate Protective Surface of Aquatic Weeds

Specially formulated to enhance the effectiveness of pond treatments, Treatment Booster Plus helps adhere the treatment to the target aquatic weed. After adhering to the target, Treatment Booster Plus works further to allow the treatment to penetrate the aquatic weed's protective surfaces for maximum treatment exposure. Treatment Booster Plus has also been enhanced to work on underwater weeds and algae by breaking the water's surface tension.

How to Use: Mix 2 fl oz of Treatment Booster Plus with every gallon of treatment solution (chemical & water mixture).

Water Use Restrictions: None

#530172	Treatment Booster Plus, 1 pint (16 fl oz)
#530192	Treatment Booster Plus, 1 gal (128 fl oz)

NEW PRODUCT!

EasyKlear[™] Defense[®] 2 in 1 Granular

Fast-Acting and Long-Lasting Broad Spectrum Weed Control

- Great for Bottom Growing Algae, Chara & Submerged Weeds
- Control Weeds Surrounding Docks & Shorelines
- Easy-to-Use Aquatic Algaecide & Herbicide

EasyKlear Defense 2 in 1 Granular is easy to use, works fast and provides long-lasting results. Works on floating and submerged algae, including Chara, along with a broad spectrum of submerged weeds. Works great in ponds, lakes, and even in areas with flowing water, such as a dock area or canal. EasyKlear takes the guesswork out of pond and lake treatments.

How to Use: Evenly broadcast ready-to-use granular in the area to be treated using a granular spreader. For total pond treatments (avg. depth of 4'), spread evenly around the pond's perimeter directly from shore.

- Planktonic or Filamentous Algae = 15 lb per 1/4 surface acre
- Submerged Weeds and Chara = 30 lb per 1/4 surface acre

For spot treatments (avg. pond depth of 3'), spread directly on weed and/or algae beds from shore or boat.

- Filamentous Algae = 2 lb per 1,000 sq ft
- Chara and Submerged Weeds = 10 lb per 1,000 sq ft.

Water Use Restrictions: 7–25 days livestock/domestic, human consumption. 7 days for irrigation on annual nursery or greenhouse crops. There are no turf irrigation restrictions. Not for use in water garden or koi ponds.

State Shipping Restrictions: EasyKlear Defense cannot be shipped to AK, AZ, CA, CT, DC, HI, MA, ME, NJ, NY, PR, RI, VT, WA, or Canada.

Add Treatment Booster Plus!

Algae Defense®

Kills Algae Fast

- Works on Both Floating & Submerged Algae
- Fast-Acting

Algae Defense is a broad spectrum algaecide that works fast. Algae Defense works as a quick fix to eliminate algae problems.

Algae Defense works best when water temperatures reach at least 60°F. Unless steps are taken to reduce the overall nutrients in the pond, multiple applications may be needed for a full season of control. For best results, use with Treatment Booster Plus.

How To Use: Mix 32 fl oz of Algae Defense, 6 fl oz Treatment Booster Plus, and 2.5 gallons of water in a tank sprayer to treat up to 2,000 sq ft. Spray algae directly. Only treat up to half of the pond's surface, waiting 10 to 14 days before treating the second half.

In hot weather or when fish are stressed, treat ¼ to 1/3 of the pond at a time. For deeper water place the tank sprayer's tip beneath the water's surface. Always read product label before use.

Water Use Restrictions: None

Other Restrictions: Do NOT use in ponds with koi, goldfish or trout unless carbonate hardness (KH) is above 50 ppm. If the pond contains koi, goldfish, or trout AlgaeOff (pg 43) is recommended.

#530130	Algae Defense, 1 gal (128 fl oz)	Treats up to 8,000 sq ft
#160124	Carbonate Hardness Test, Single Test

NEW PRODUCT!

KnockDown[™] Defense[®]

Algae & Aquatic Weed Control

- Eliminates Floating Algae, Duckweed, Watermeal, and More
- Effective in Slow Moving or Inactive Water
- Fast-Acting Combination Treatment
- Liquid Formulation for Easy Use

KnockDown Defense provides fast control of tough invasive weeds such as duckweed, watermeal, fanwort, hydrilla, as well as algae. KnockDown is an EPA-registered liquid herbicide that contains 42% of the active ingredient Flumioxazin. Ideal for controlling algae and submerged aquatic weeds in ponds and lakes. Effective in slow-moving or quiescent waters such as bayous, canals, drainage ditches, reservoirs, and marshes. KnockDown is very versatile and breaks down quickly in water without accumulating in the sediment or clogging application sprayers.

How to Use: Mix Airmax KnockDown Defense and Treatment Booster Plus with water in a tank sprayer according to label instructions. Spray onto floating weeds and algae, or place the tip beneath the water's surface.

Surface Application: Mix 0.75 - 1.5 fl oz of Airmax KnockDown Defense, 2 fl oz Treatment Booster Plus and 1 gal of water for every 1/8 acre (5,456 sq ft).

Subsurface Application: Mix 2.2–4.4 fl oz of Airmax KnockDown Defense, 2 fl oz Treatment Booster Plus and 1 gal of water for every 1/8 acre (5,456 sq ft) per 1' average depth.

Water Use Restrictions: 5-day irrigation restriction.

State Shipping Restrictions: KnockDown Defense cannot be shipped to AK, CA, CT, DC, HI, MA, ME, NJ, NY, PR, RI, VT, WA, or Canada.

#530268 • Knockdown Defense, 16 fl oz

WipeOut™ PondWeed Defense®

Liquid Herbicide

- Controls Persistent Pond Weeds All Season
- Treats Entire Body of Water in a Single Application
- Effective Herbicide for Floating & Submerged Weeds

WipeOut PondWeed Defense is an herbicide for management of aquatic vegetation in fresh water ponds, lakes, reservoirs, potable water sources, drainage canals and irrigation canals. AirMax WipeOut PondWeed Defense Aquatic Herbicide contains fluridone, the same active ingredient found in Sonar A.S. and Avast! SC Aquatic Herbicide.

How to Use: Mix 3.8 fl oz of WipeOut with water in the included container and apply to the pond in several spots from the shoreline. 3.8 fl oz treats a 1/8 surface acre pond with an average depth of 4 ft. Always read product label before use.

Water Use Restrictions: WipeOut PondWeed Defense carries a 30 day irrigation restriction.

State Shipping Restrictions: WipeOut PondWeed Defense cannot be shipped to AK, CA, CT, DC, HI, ME, NJ, NY, PR, VT, WA or Canada.

#530250	WipeOut PondWeed Defense - 4 fl oz	Treats a 1/8 Surface Acre Pond
#530251	WipeOut PondWeed Defense - 8 fl oz	Treats a 1/4 Surface Acre Pond

Contains the same active ingredient found in Sonar® A.S. and Avast!® SC Aquatic Herbicides**

Ultra PondWeed Defense®

Broad Spectrum Pondweed Control - Contact Herbicide

- Works on All Pondweed Including Floating, Submerged & Emerged
- Provides Short Term Control of Duckweed
- Fast-Acting Liquid Aquatic Herbicide

Ultra PondWeed Defense is a broad spectrum aquatic herbicide that works on all pondweeds including submerged, floating and emergent weeds. Ultra PondWeed Defense may also be used for short-term control of duckweed. For best results, use on actively growing plants. Emergent treatments may require additional applications to gain full control. For best results, use with Treatment Booster Plus.

How to Use: Mix 16 fl oz of Ultra PondWeed Defense, 4 fl oz Treatment Booster Plus, and 1.5 gallons of water in a tank sprayer to treat up to 2,500 sq ft. Spray target directly. Only treat up to half of the pond's surface, waiting 10 to 14 days before treating the second half. In hot weather or when fish are stressed, treat 1/4 to 1/3 of the pond at a time. For deeper water place the tank sprayer's tip beneath the water's surface. Always read product label before use.

Water Use Restrictions: 3 days drinking, 1 day livestock/domestic animal consumption, 5 day irrigation.

State Shipping Restrictions: Ultra PondWeed Defense cannot be shipped to AK, AZ, CA, CT, DC, HI, ME, NJ, NY, PR, RI, VT, WA or Canada.

#530144	Ultra PondWeed Defense, 1 qt (32 fl oz)	Treats up to 5,000 sq ft

Water Garden Treatments

CrystalClear has been the proven solution and market leader in water garden treatments for over 20 years, becoming the first choice among pond owners and pond shop keepers. The success of CrystalClear is a direct result of several proprietary biological treatments and EPA registered algaecides.

AlgaeOff® For Rocks, Streams and Waterfalls

- Immediately Removes String Algae
- Works On Contact
- EPA Registered Algaecide

CrystalClear AlgaeOff utilizes the latest in oxygen technology to remove string algae quickly and efficiently. CrystalClear AlgaeOff is an EPA registered, granular algaecide that works on contact. Kills and removes algae on rocks, streams and waterfalls.

State Shipping Restrictions: Cannot be shipped to AK, HI, or Canada.

ClarityMax® Pond, Stream & Waterfall Treatment

- Prevents Buildup & Removes Algae Stains on Rocks, Streams & Waterfalls
- All-Natural Proprietary Treatment Blended with Natural Bacteria & Enzymes
- Keeps Water Clean & Clear

ClarityMax cleans ponds with an unprecedented combination of an all-natural proprietary formula blended with bacteria and enzymes. These ingredients work in tandem to clean, polish and break down dead organic debris that create problems for pond hobbyists on and around waterfalls, streams, plant pots and filtration systems. ClarityMax also is designed to maintain crystal clear water for the long term. Use once every week when water temperatures are above 50°F. Safe for all aquatic life.

CCB051-1	1 lb	Treats 8,000 Gallons (or a 500 Gallon pond for up to 4 Months)
CCB051-2	2.5 lb	Treats 20,000 Gallons (or a 1,250 Gallon Pond for up to 4 Months)
CCB051-6	6 lb	Treats 48,000 Gallons (or a 3,000 Gallon Pond for up to 4 Months)
CCB051-25	25 lb	Treats 200,000 Gallons (or a 12,500 Gallon Pond for up to 4 Months)

FINALLY!

TELL MUCK, SLUDGE & ODOR WHAT YOU REALLY THINK.

MuckOff Muck & Sludge Reducer

- **Eliminates Muck & Sludge**
- **Breaks Down Dead Algae, Leaves & Fish Waste**
- **Safe for All Aquatic Life**

MuckOff tablets are designed to sink to the bottom of the pond to quickly reduce muck and sludge caused from dead algae, leaves and fish waste. MuckOff easy to use tablets are a blend of natural bacteria and enzymes that help clear water by removing excess nutrients and reducing sediment. Use once every four weeks when water temperatures are above 50°F.

CC040-24	MuckOff, 24 tab	Treats 4,000 Gallons (or a 1,000 Gallon pond for up to 4 Months)
CC040-48	MuckOff, 48 tab	Treats 8,000 Gallons (or a 2,000 Gallon pond for up to 4 Months)
CC040-96	MuckOff, 96 tab	Treats 16,000 Gallons (or a 4,000 Gallon pond for up to 4 Months)
CC040-384	MuckOff, 384 tab	Treats 64,000 Gallons (or a 16,000 Gallon pond for up to 4 Months)

Perfect for Counter top Display!

PondShock® For Crystal Clear & Clean Water

- Just Toss & Go, Dissolvable
- Billions of All Natural, Live Bacteria & Enzymes in Each Ball
- Rapidly Breaks Down Ammonia & Nitrites
- Safe for Fish & Plants

CrystalClear PondShock is an organic ball powered by billions of all natural, live bacteria and enzymes to rapidly break down ammonia, nitrites and organic waste. PondShock comes in an easy to use one dose container with activating gel and is designed to give your pond an extra boost when poor water quality issues escalate. PondShock also helps jump-start your biological filters reducing ammonia spikes and clearing water. PondShock is a great alternative to chemicals to clear your pond water as it will not disrupt biological filters.

CC023-PS PondShock Treats up to 2,500 Gallons

BioClarifier[™] Natural Pond Clarifier

- Clears Pond Water with Natural Bacteria & Enzymes
- Seeds & Maintains Biological Filters Keeping Your Pond Balanced
- Breaks Down Suspended Dead Debris
- Easy to Use Pre-measured Water Soluble Packets
- Concentrated Formula
- Safe for All Aquatic Life

BioClarifier naturally clears water, removes odors, breaks down suspended dead debris and decaying leaves with billions of bacteria colonies and added enzymes. The result is a cleaner pond, thriving fish population, improved dissolved oxygen levels and reduced ammonia levels. BioClarifier comes in easy to use water soluble packets and can be used in ponds, fountains, bubblers and disappearing waterfall features. Use once every two weeks when water temperatures are above 50°F.

CCB002-1	12 pkts	Treats 12,000 Gallons (or a 1,000 Gallon pond for up to 4 Months)
CCB002-2	24 pkts	Treats 24,000 Gallons (or a 2,000 Gallon pond for up to 4 Months)
CCB002-6	96 pkts	Treats 96,000 Gallons (or a 8,000 Gallon pond for up to 4 Months)
CCB002-25	300 pkts	Treats 300,000 Gallons (or a 25,000 Gallon ponds for up to 4 Months)

OneFix[®] Natural Water Clarifier

3X CONCENTRATED

- Clears Pond Water with Natural Bacteria
- Fast-Acting, Goes to Work Instantly
- Safe for All Aquatic Life

OneFix utilizes natural bacteria to digest suspended dead organics to help keep the pond balanced and water crystal clear. OneFix is specifically designed to start working the second it hits the water. Use once every two weeks when water temperatures are above 50°F.

CC021-16	16 fl oz	Treats 6,000 Gallons (or a 750 Gallon pond for up to 4 Months)
CC021-32	32 fl oz	Treats 12,000 Gallons (or a 1,500 Gallon pond for up to 4 Months)
CC021-1G	1 gal (128 fl oz)	Treats 48,000 Gallons (or a 6,000 Gallon pond for up to 4 Months)

Barley Extract™ Natural Pond Treatment

- Reduces Unsightly Debris
- Maintains Clean & Clear Water
- Faster Than Pellets, Cleaner Than Bales
- Safe for All Aquatic Life

Barley Extract is the natural solution to maintaining a clean and balanced pond all year long. Faster than barley pellets and cleaner than barley straw bales. Barley Extract is fermented under ideal conditions capturing a powerful, concentrated extract that goes to work immediately out of the bottle with no mess. 16 fl oz treats 8,000 gal. or 8,000 gal. pond for up to 4 mos.

CC095-16	16 fl oz	CC095-1G	1 gal (128 fl oz)
CC095-32	32 fl oz	CC095-2G	2.5 gal

Spring & Fall Prep Cold Water Natural Bacteria with Barley

- Replenishes Winter Bacteria Loss During Spring Startup
- Accelerates Decomposition of Leaves, Twigs & Sediment
- Easy to Use Pre-measured Water Soluble Packets
- Safe for All Aquatic Life

Spring & Fall Prep contains cold water natural bacteria designed to accelerate the decomposition of leaves, twigs, muck and other sediment during the fall and winter months while replenishing winter bacteria loss during the spring. Apply weekly to keep your pond looking its best even when water temperatures are between 40°F – 50°F. 12 packets treats 12,000 gallons or a 2,000 gallon pond for up to 6 weeks.

CC026-12	12 pkts	CC026-24	24 pkts

Nature's Choice™ Barley Straw Pellets Natural Pond Treatment

- Cleans & Polishes Pond Water Naturally
- Fast Acting & Easy to Apply
- Steady Release for Long-Term Clarity
- Safe for All Aquatic Life

Nature's Choice Barley Straw Pellets utilize barley degradation technology to help manage pond problems all year long. When placed in an area of steady water flow Nature's Choice will slowly degrade and emit a natural chemical that cleans and polishes pond water naturally. Includes one mesh bag.

CC067-2	Barley Pellets, 2 lb	Treats 2,000 Gallons for up to 3 Months
CC067-5	Barley Pellets, 5 lb	Treats 5,000 Gallons for up to 3 Months
110900	12"x18" Mesh Bag	For up to 5 lbs of Barley Pellets

RapiClear™ Pond Water Clarifier

- **Flocculates & Clears Pond Water**
- **Fast-Acting, Works in as Little as One Hour**
- **Safe for All Aquatic Life**

RapiClear is designed to clear cloudy, discolored pond water quickly, usually within 1-3 hours depending on the size of the pond. RapiClear will quickly restore pond water to a brilliant shine. RapiClear has unique properties that allow suspended particles in water to attract together and fall to the bottom of the pond where they can be vacuumed out or removed by filtration. The result is an extremely fast clearing of the pond.

CC063-16	RapiClear, 16 fl oz	Treats 8,000 Gallons
CC063-32	RapiClear, 32 fl oz	Treats 16,000 Gallons
CC063-1G	RapiClear, 1 gal (128 fl oz)	Treats 64,000 Gallons

PondTint™ Blue & Nite Pond Colorant

- **Shades & Protects Your Pond**
- **Available in Two Colors**
- **Safe for All Aquatic Life**

PondTint is a non-toxic pond dye designed to help keep water sparkling clean and cool. Shaded pond water naturally stays clearer than pond water in full sun. If a pond does not have significant surface plant coverage, it is a good idea to use PondTint in the hot summer months to shade the pond. Available in two colors: PondTint Blue and PondTint Nite (Dark Blue).

CC064-16	PondTint	Blue, 16 fl oz	Treats 16,000 Gallons
CC085-16	PondTint	Nite, 16 fl oz	Treats 16,000 Gallons

Vanish™ Plus Detoxifier Plus Stress Reducer

**Compare to
API Stress Coat™**

- Immediately Removes Chlorine, Chloramine, Heavy Metals & Ammonia
- Adds Fish Slime Coat Protectant
- Safe for All Aquatic Life

Vanish Plus will immediately remove chlorine, chloramine, heavy metals and ammonia. Vanish Plus will also add a slime coat protectant to the water to help fish heal wounds and abrasions while protecting them in times of stress, such as during water changes & clean-outs.

CC015-16	Vanish Plus, 16 fl oz	Treats 3,200 Gallons
CC015-32	Vanish Plus, 32 fl oz	Treats 6,400 Gallons

Vanish™ Dechlorinating Granules

3X CONCENTRATED

- Value Formula
- Immediately Removes Chlorine
- Safe for All Aquatic Life

Vanish will immediately remove chlorine that is present in city water supplies. Chlorine is toxic to fish and when left untreated, chlorine can cause gill damage and leave fish unable to breathe. Use Vanish when performing water changes or setting up a new pond.

CC013-8	Vanish Dry, 8 oz	Treats 24,000 Gallons
CC013-2	Vanish Dry, 2 lb	Treats 96,000 Gallons
CC013-25	Vanish Dry, 25 lb	Treats 1,200,000 Gallons

Foam-B-Gone™ Foam Remover

- Removes Foam in Seconds
- For Use in Ponds, Fountains & Statuary
- Safe for All Aquatic Life

Foam-B-Gone will remove foam from water within seconds of application. Foam is usually caused by excessive proteins present in pond water. Protein foam can be harmful and should be removed quickly.

CC060-8	Foam-B-Gone, 8 fl oz	Treats 8,000 Gallons
CC060-1G	Foam-B-Gone, 1 gal (128 fl oz)	Treats 128,000 Gallons

12"x18" Mesh Bag
Included

Polish AC™ Activated Carbon

- Removes Tannins, Chlorine & Odor
- Polishes Water & Removes Microscopic Debris
- Removes Ammonia, Nitrite & Nitrate
- Safe for All Aquatic Life
- Includes (1) Mesh Application Bag

Polish AC is bituminous coal that has been exposed to extreme heat which activates the carbon giving it incredible absorption capacity. The billions of pores within the carbon act as hundreds of sponges soaking in many pond pollutants such as, tannins, ammonia, nitrite and nitrate. The result is a polished, clean pond environment.

CC090-5	Polish AC, 5 lb	Treats 2,000 Gallons
CC090-15	Polish AC, 15 lb	Treats 6,000 Gallons
110900	12" x 18" Mesh Bag	For 5 lbs Activated Carbon

KnockOut™ Plus All Natural Fish Treatment

- **7 Day Treatment**
- **Remedies Ick, Fungal Infections & Single-Celled Parasites**
- **All Natural, Safe for Fish, Plants & the Pond's Ecosystem**
- **Prevents Future Infections**

KnockOut Plus is an all natural fish treatment that eliminates Plus prevents external single-celled parasite or fungal infections. KnockOut Plus works extremely well with pond fish species such as koi and goldfish, and unlike most fish treatments, there is no need to remove your filters before treatment. Furthermore, when used routinely, KnockOut Plus works as a strong preventative treatment. Use any time new fish are added, during pond clean-outs, during spring start-up or any time fish are stressed.

KnockOut Plus is a broad spectrum treatment for a variety of parasites including ichthyophthirius (ich), sporozoan parasites, dinoflagellate infections as well as fungi such as saprolegnia, achlya, leptomitius and pythium. May be used with most invertebrates including snails.

CC136-1G KnockOut Plus, 1 gal (128 fl oz) Treats 1,000 Gallons for 7 Days

WipeOut™ Bacterial Control

- **Controls & Prevents Bacterial Infections**
- **Controls Finrot & Ulcers**
- **Safe for Fish & Plants**

WipeOut bacterial control is excellent for controlling gill diseases in pond and aquarium fish. Bacterial disease generally results from fish stress due to adverse water quality conditions (pH, oxygen or temperature problems), habitat clean-outs, untreated abrasions or predators. WipeOut works extremely well on pond fish species such as koi and goldfish as well as on commonly found aquarium fish species. WipeOut is excellent for controlling and preventing bacteria infections such as finrot and ulcers.

CC131-8 WipeOut, 8 oz Treats 4,800 Gallons

ParaSalt™ Pond Salt

- **Helps Control Common Parasites**
- **Maintains Healthy Slime Coat**
- **Safe for All Aquatic Life**

ParaSalt is formulated to increase koi and goldfish electrolytic intake. Electrolytes are critical in building and maintaining a healthy slime coat. Electrolytes such as potassium are essential in wound repair and in times of heavy stress (during water changes or clean-outs). ParaSalt is excellent for mucous production when healing from a wound.

ParaSalt will also help ward off and remove most common protozoan parasites found in koi and goldfish such as Dactylogyrus, Byrodctylus, Epistylis, Trichodina and Chilodonella. ParaSalt can be used in a salt bath for heavy infestations or as a routine treatment to keep parasites from entering the pond environment.

CC158-10	ParaSalt, 10 lb	Treats 2,000 Gallons
CC158-20	ParaSalt, 20 lb	Treats 4,000 Gallons
